Microsoft

Operations Management Suite

PRICING AND LICENSING DATASHEET—JULY 2016

What is the Operations Management Suite subscription?

The Operations Management Suite (OMS) subscription offers a simple way to access a full set of cloud-based management capabilities, including log analytics, automation, configuration, security, backup, and site recovery. Combining the value of System Center with SaaS based management services, the OMS subscription provides a complete solution for hybrid cloud environments. Pricing is structured per virtual machine per month with an annual commitment and provides a greater than 50 percent discount versus purchasing each of the included components separately. With OMS, you can manage workloads and applications on Windows Server and Linux across any on-premises and public cloud, including Azure and Amazon Web Services, giving you an agile approach to management of your hybrid cloud.

	OMS Subscription
Log Analytics	✔
Process Automation	✔
Desired State Configuration	✔
Backup	✔
Site Recovery	✔
System Center	
Configuration Manager	✔
Operations Manager	✔
Orchestrator	✔
Data Protection Manager	✔
Virtual Machine Manager	✔
Service Manager	✔

Estimated Retail Price: **$35/VM/month***

*Estimated retail price per virtual machine per month with annual commitment. Pricing is in US dollars and can vary by country. Please contact your partner or Microsoft representative for a quote.

What if I am already paying for System Center?

For current System Center customers with Software Assurance, the Operations Management Suite is available as an add-on to your existing licenses. The add-on is also purchased as an annual commitment. If you are currently using System Center to manage your on-premises datacenter resources, you can extend the value of your investment with cloud-based management, giving you increased flexibility in working across multiple platforms and multiple clouds.

How do the subscription and add-ons compare?

Details on included entitlements	OMS Subscription	OMS Add-On for System Center–Standard	OMS Add-On for System Center–Datacenter
Log Analytics			
• Includes the premium tier of Log Analytics, which retains data for 12 months • Entitlements are prorated monthly. If usage exceeds the monthly entitlement overage, charges apply at the standalone rates listed below	**4.17 GB per month** (50 GB per year)	**8.3 GB per month** (100 GB per year)	**41.7 GB per month** (500 GB per year)
Backup			
• Storage is charged separately • Backup entitlement can be used for backing up VMs, application servers like Microsoft SQL Server, Exchange, SharePoint, Dynamics, and File Servers	**1 VM**	**2 VMs**	**10 VMs**
Site Recovery			
• Storage, storage transactions, and outbound data transfer are charged separately • Can be used for either site recovery to Azure or site recover to a secondary non-Azure datacenter	**1 VM**	**2 VMs**	**10 VMs**
Process Automation			
• Entitlements are prorated monthly. If usage exceeds the monthly entitlement, overage charges apply at the standalone rates listed below	**416.7 min per month** (5,000 min per year)	**833.3 min per month** (10,000 min per year)	**4,167.67 min per month** (50,000 min per year)
Desired State Configuration			
—	**1 VM**	**2 VMs**	**10 VMs**
System Center			
• Includes Operations Manager, Configuration Manager, Orchestrator, Virtual Machine Manager, Data Protection Manager, and Service Manager	**All components for use against 1 VM**	**Not included**	**Not included**
Prerequisite	**None**	**Only available to customers paying software assurance on System Center–Standard Edition**	**Only available to customers paying software assurance on System Center–Datacenter Edition**
Estimated retail price	**$35 per month** (1 VM pack)	**$45.4 per month** (2 VM packs)	**$226.9 per month** (10 VM packs)

Can I purchase services separately?

You have the option to pay for only the IT management services you need. Each service is priced either per virtual machine, per GB of ingested data, or per minute.

Log Analytics (premium)	**$3.50 per GB**
Backup	**$10 per VM/month**
Site Recovery to Azure	**$54 per VM/month**
Site Recovery to other sites	**$16 per VM/month**
Process Automation	**$0.002 per min**
Desired State Configuration	**$6 per VM/month**
